Bodog Poker has maintained a commitment to fresh ideas combined with a thorough understanding of what turns visitors into satisfied, loyal customers. Bodog limits a player to having 3 games open at once, and that multi-table feature is implemented with a unique "picture-in-picture" arrangement. The software is fairly fast, the graphics aren't too bad.

## Bodog Poker Games

Bodog offers several types of poker games. They run cash tables 24/7 with buy-ins to suit everyone, from \$2 to \$2,000. They also offer single table tournaments that only begin when the table is full – there is no schedule. It's all about finding a seat, waiting for it to start, then trying to finish in the money.

They also offer Start with a fixed number of chips and play until one winner scoops them all. Keep up as blinds and antes increase - and make that final table!

## Bodog Poker Software

Bodog.com Poker launched a new and improved poker software in January 2006. With this full-fledged version, Bodog managed to create one of the best pieces of poker software on the internet. It runs without any delays or downtime, all games are fast and smooth, and you can customize your playing experience to a large extent.
